

class 1

MEDICAL FACULTY UNIVERSITY HOSPITAL MAGDEBURG

EXPERIMENTAL OBSTETRICS AN GYNAECOLOGY

class 1

28.07.2014 -

The 15 of July 2014 children from first grade (class 14 from the Domgrundschule Magdeburg) visited our Department. It was a funny day, the kids learned how to isolate DNA from a banana, to see the onion skin under the microscope, to make foam out of yeast and to use the pipettes.

It was a lovely day and we do hope that the children enjoyed the day with us.

Thanks for the visit!
